Basic UDS Workshop

Location: Ontario, CA Convention Center

The Uniform Data System (UDS) Training will be a full day training covering the preparation of the 2009 UDS Report. Changes to the UDS editing and submission process and to several of the tables will be highlighted along with a clear description of the differences between the UDS and BPHC's new ARRA reporting (the HCQR). *This will not however, be an ARRA training program.* The training addresses each of the tables, integrating a discussion of the changes that have been made and the definitions necessary to complete the reports. Because of wide-spread problems in submitting the new clinical measures tables (Table 6B and 7), these will once again be covered extensive. Advanced OSHPD Training Workshop

Location: Ontario, CA Convention Center

This half day session will instruct clinic staff on how to successfully complete and submit their Office of Statewide Health Planning and Development (OSHPD) Annual Utilization Report (AUR). This session will cover specific reporting issues such as definitions of data elements, accounting definitions and typical problems encountered. [Contact Tanya Roberts with CPCA at troberts@cpcac.org](mailto:troberts@cpcac.org) or (916) 440-8170 ext. 1115 if you have any questions regarding registration.

Community Clinics Voice Members Meeting

Location: The California Endowment's Oakland Conference Center

This is a once-a-year opportunity to meet with fellow Voice members in person, and give your input on what you would like to see on the Voice in the future. We'll offer a guide tour of the redesigned Voice site and look forward to hearing your ideas on how to make best use of the site's new social networking capabilities. The meeting is free, and lunch will be provided. We'll provide reimbursement for travel expenses of up to \$300 per clinic. Please make your own travel arrangements, reimbursement claim forms will be distributed at the meeting. <http://www.communityclinicvoice.org>

UDS: Uniform Data Systems Workshop

Location: Council of Community Clinics

The Uniform Data System (UDS) Training will be a full day training covering the preparation of the 2009 UDS Report. Changes to the UDS editing and submission process, and to several of the tables will be highlighted along with a clear description of the differences between the UDS and BPHC's new ARRA reporting (the HCQR). *This will not however, be an ARRA training program.* The training addresses each of the tables, integrating a discussion of the changes that have been made and the definitions necessary to complete the reports. Because of wide-spread problems in submitting the new clinical measures tables (Table 6B and 7), these will once again be covered extensively. BPHC continues to modify the submission process. Changes, which began last year with the introduction of the Electronic Hand Book based UDS will continue this year. As noted in PAL 2009-10 the process of editing will no longer take place after *formal* submission of UDS reports. The new process is still being designed, but it currently calls for a February 15th date by which time all UDS reports must be ready for review, and a continued but abbreviated review process. JSI will review clinical measures sampling procedures, will check reports for potential errors, and discuss our findings with grantees so that they may make appropriate corrections. The UDS training is aimed at those who are responsible for gathering and reporting the data elements included in the UDS report, as well as for management staff who need to understand the definitions and concepts used. UDS training will be conducted by BPHC's UDS contractor, John Snow Inc. To register contact Ann Marie @ ajackowski@ccc-sd.org or 619-542-4329.
