Alcohol and Other Drug Counselor

Data Entry/Project Support

SITES

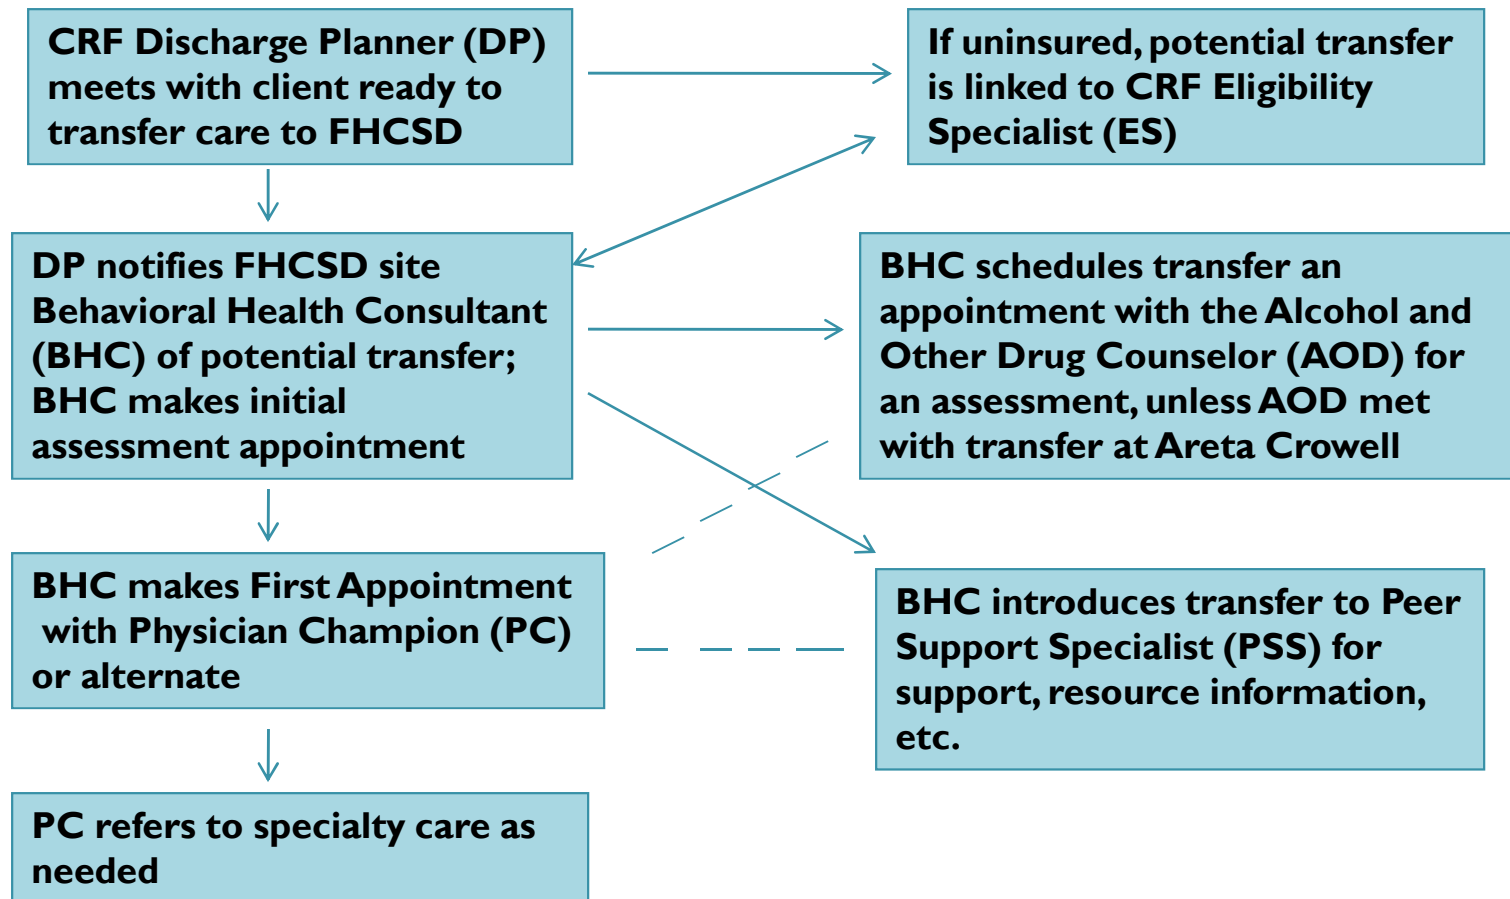

Areta Crowell Center (CRF)

North Park Family Health Center (FHCSD)

City Heights Family Health Center (FHCSD)

Logan Heights Family Health Center (FHCSD)

How it Works

NOTE: Nurse Care Coordinator (NCC) is out-stationed at CRF to do health screening of CRF participants and facilitate link in to FHCSD primary care if an emergent health care issue is identified – accessible to Areta Crowell program participants regardless of transfer readiness.

How It Is Working So Far?

Change is difficult for some; others are confident their overall health will improve.

Physicians like having a team to work with, especially the added AOD resources.

Therapists understand and value the model; occasionally feel like salespeople with those struggling with the transition.

Peers enjoy helping clear up misunderstandings about systems.
