Or e-mail to ajackowski@ccc-sd.org by July 13, 2009

The learning session will include speakers and panel discussions as well as opportunities to work with clinic team and network with other clinics and i2iTracks users. For new Tools for Quality grantees, the learning session will include an introductory session on i2iTracks required for all grantees. The learning session will also include a discussion of how clinics are using i2iTracks and other HIT tools to improve quality of care and patient and population health outcomes for their patients and communities.
